

## About CiTC

CiTC Investments focuses on early stage investment opportunities of new technologies which are scalable.

CiTC Investments has taken an equity position in a healthcare provider (Eternity) focusing on preventive and predictive health screening. It was the vision of CiTC that health screening will be the new frontier of medicine.

Similar to a car CiTC believes "regular maintenance" will protect their health, strengthen their immune system, increase their vitality and safeguard their lives.

In November Eternity was honored with the prestigious MEED award for the best healthcare software. Eternity is the largest health screening provider in the Middle East.

## About Eternity

Eternity focuses on preventive predictive health screening with the aim to (1) safeguard your life (2) increase your vitality (3) provide you with the P&L of your health.

At Eternity we screen for many conditions such as risk of heart attack and stroke, cancer, full body screening, hormone imbalance, nutritional deficiencies, toxins, fitness, cognitive functions and more.

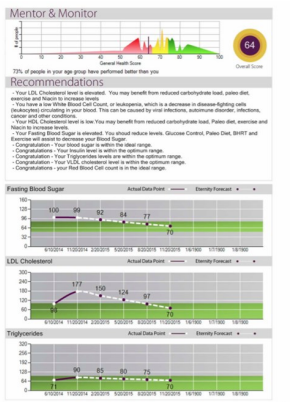

Eternity is providing health screening services to 4 main markets: (1) Individuals (2) Corporates (3) Health Tourism (4) Insurances.

Eternity delivered over 5,000 health screens in 2015 and will screen more than 25,000 people in 2016. This growth is being realized through corporate wellness programs. Eternity provides a turn key wellness platform to some of the largest companies in the region. Through the P&L of your Health, delivered by the award winning software developed by Eternity, companies such as DU, NBAD, Dubai Holdings, DeVere and many others have joined Eternity in order to deliver Executive and Staff health screening.

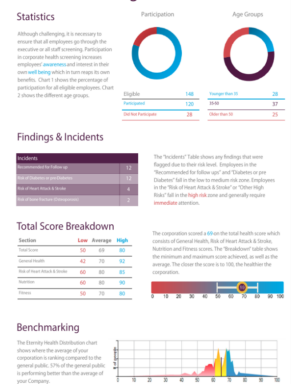

Some examples of the reports featuring health history, health forecasts, health benchmarks and more are displayed on the right.
