About Schmitz

Schmitz has several different cleaning solutions.

For online tube cleaning systems Schmitz has developed the Schmitz Cleaning Balls. Different cleaning balls operating at temperatures of up to 140 degrees Celsius restore the efficiency of your equipment.

For offline conditions a tube cleaning gun is used propelling cleaning projectiles through the tubes. Utilizing this cleaning method is a perfect solution for short shut downs.

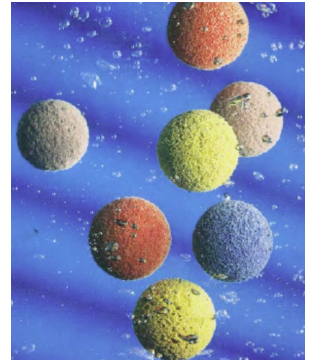

CiTC and Schmitz have online and offline cleaning solutions for the most advanced equipment used in your operation.

Regular maintenance and cleaning ensures an optimum performance increasing your bottom line.

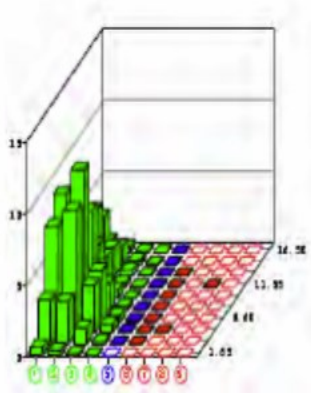

Industries and equipment using the Schmitz solutions:

- Power Plants
- Heating / Cooling Towers
- Heat Exchangers
